Our Homes

Beswick House – Long Term or Palliative Care

- Established in 1993
- Provides 24-hour long-term and palliative support for up to ten individuals
- Is wheelchair accessible
- Is a clean, well maintained home-like environment
- Residents are provided with their own bedroom and share common areas of the home
- Residents pay a percentage of their income to support the costs of rent, groceries and utilities
- Meals are prepared by staff
- Access to support services such as case management and transitional living skillsaid

The target population for Beswick House includes individuals who:

- May require support to stabilize medication regimen
- May require long-term care
- May require HIV palliative or 'end of life' care
- Are economically disadvantaged (i.e. dependent on social services for income)
- Do not meet admission criteria for other sources of long-term or hospice care
- Often are transitioning from acute care hospital beds
- Often possess dual diagnoses such as neurological disease as well as addiction issues, hepatitis, physical disabilities, and/or mental health issues

Project 2011 – Moderate Care and Support

- Opened in 2008.
- Provides longer term housing and supports for individuals who have demonstrated an ability to live more independently in a group home setting.
- Residents are provided with their own bedroom and share and maintain the other areas of the home
- Residents pay a percentage of their income to support the costs of rent and utilities.
- Residents are supported by a resident mentor living in the home.

Project Kathleen – Intensive Care & Support – Women

- Opened on December 1st, 2011 (World AIDS Day).
- Provides longer term housing and intensive support for highly vulnerable women.
- Residents are supported by 24/7 care and support staff
- Residents are provided with their own bedroom and share and maintain the other areas of the home
- Residents pay a percentage of their income to support the costs of rent, groceries and utilities.

Carlyle Commons – Independent Living

- Opened in October 2013
- Provides longer term housing and supports for individuals who are able to live more independently in an apartment setting
- Seven 2 bedroom apartments and one handicap accessible 1 bedroom apartment
- Access to support services such as case management and health manager
- Residents pay a percentage of their income directly to Calgary Housing Company under their subsidized housing program

The target population for Carlyle Commons includes individuals who:

- Are 50+ years old
- Small families
- Are able to live independently with minimal supports
- Are now being impacted by ageing
- Priority will be giving to those with co-morbidities (ex. Hep C) and high vulnerability
- Are economically disadvantaged (i.e. dependent on social services for income)
